

1. Name of the organisation

CENTRO EDUCACION PERMANENTE DE ADULTOS CONCEPCION ARENAL

2. Short description of the organisation

Our Center for Permanent Education of Adults (CEPER Concepcion Arenal) is specialized in attending all educational needs of those deprived of liberty in a Penitentiary Institution, covering all levels of the educational curricula, from basic literacy skills to primary and secondary education, and also with a broad non-formal educational program. It is the only educational institution with this characteristic in the whole province of Granada. Its premises are located inside the prison itself, at the Centro Penitenciario de Albolote (Granada), in the Socio-Cultural area of the penitentiary, with eight different schoolrooms inside, attending a population of approximately 1400 inmates (year 2016) that are divided in 14 different units each under the tutoring of a specific teacher. It serves as well, the inmate population of the Centro de Inserción Social Matilde Cantos – CIS- with over 250 residents (year 2017), through its office in the open regime prison, located in the province’s capital itself –in the city center of Granada-, therefore covering a whole educational itinerary since the first day of imprisonment until the inmate reaches full contact outside the prison walls.
